MHO-Co Racing

# Youngtimer Racing

MHO-Co Racing, has been racing in Youngtimer since 2017

we mainly race in BMW E46 that needs to be a car model earlier than 2003, and can't be modified outside its original engines and general looks to qualify for the Youngtimer category.

Class/Division: Since 2022 we participated in 2 Divisions, 2<sup>nd</sup> - 3<sup>rd</sup> Division, before that we only participated in Division 3.

These Divisions have different weight to horsepower ratios used in it's cars,

Ex.

Division 1: Over 4,4 to and including 6,4 kg/hk

Division 2: Over 6,4 to and including 7,4 kg/hk

Division 3: Over 7,4 kg/hk

The lower this ratio is, the more power you have for each kg (lower is more),

this is controlled every time after a Timed Run and HEAT if you get a podium position (P1, P2, P3)

Youngtimer races consist of 3 HEAT's of 15min + 1 Lap, and 1 Timed run of 20min before the 1<sup>st</sup> Heat is commenced, this will determine your starting position in the 1<sup>st</sup> HEAT.

Youngtimer Rules can be found [here \(Danish\)](#)

# Events

Racing season takes place in the summer period, there are 6 racing events each year for Youngtimer DM, Drivers must sign up for each one to participate and have a chance at winning in a race that takes place on 4-5 different tracks per season.

3 track's in Denmark (Jyllandsringen, Padborg park, Ring Djursland) and 2 track's in Sweden (Ring Knutstorp and Sturup Race way)

We also have a private company event ones a year, where we invite Sponsors And friends to come and try out a race car, depending on the sponsor package you have, you will gain different benefits, from entrance to the races as a spectator with access to the car tents, to driving a race car for yourself on private company event days, and your logo on the race cars, and more.

# Company event days

Event days are all day events and are packed with race cars, race simulator, people, food, drinks and fun.

It's even possible to drive your own car on the track, leaving your wife/Girlfriend in the pit is recommended for your own safety and the cars, approved safety gear will be provided to you by us, any damage you might cause to the cars depending on the severity and circumstance of the damage will be billed to you, so don't overdrive your skills or the car's ability, the same goes to the Track, any damage to the track will be billed to you by the Track chief.

These cars are all stick shift cars, fitted with short shift, always remember to shift gear in good time, no need to over drive it as this can only be done reliably with more experience, you risk over-reving the engine incorrectly and bending valves and/or worse, there are no ABS, ALS, ESP... fitted to the cars, some don't have a brake booster, all cars are fitted with Slick tyres, unless it's raining, and cold slicks are very slippery until warmed up, the same goes to the brakes, they can more easily lock up when cold and tend to be less controllable until warmed up, it's about having fun and learning, nobody is a professional driver the first time they drive a race car, it's not your everyday car, it is very different, only you can determine if it's going to be your best day or the worst, always drive safe and responsibly, no matter where and when you drive, when you drive a car, **DRIVE A CAR.**

At event days there will be no racing, just trying out the cars, races can only be performed with license.

# Scoring System

The points system works as shown.

#1	#2	#3	#4	#5	#6	#7	#8	#9	#10	#11	#12	#13	#14	#15	#16	#17
25 pts.	20 pts.	17 pts.	15 pts.	13 pts.	12 pts.	11 pts.	10 pts.	9 pts.	8 pts.	7 pts.	6 pts.	5 pts.	4 pts.	3 pts.	2 pts.	1 pts.
